

QuickStart Pro

Coaches' favorite for nearly a decade

QuickStart Pro includes all the best-loved training features of the original QuickStart and adds more.

Training with an Edge

For nearly a decade, coaches and athletes have relied on the QuickStart in training to be the fastest in the water and off the blocks. QuickStart Pro offers all of the functionality of the original enhanced with a sleeker design, 5-digit, 3-color display and three times as many training modes.

Designed by Top Coaches

United States' elite collegiate and US Swimming coaches provided valuable information which CTS incorporated in the QuickStart and the QuickStart Pro. It is designed to help competitive and recreational swimmers of all ages and abilities achieve peak condition and fine tune their starts, relay exchanges and hand turn speeds.

Rugged, Reliable, Visible

Built to withstand the rigors of day-to-day training on the pool deck, the QuickStart Pro is rugged and reliable. Bright LED digits are highly visible both indoors and outdoors.

Fifteen Training Capabilities

- Lap Counter
