

For the past 30 years, Colorado Time Systems has led the aquatics industry with innovative, reliable products for scoring and timing. CTS is synonymous with precision and accuracy in swim timing.

The *System 6* is your central timing system, which coordinates incoming information from the start system, touch-pads, relay judging platforms, backup buttons, and remote judging terminals for diving and synchronized swimming. It sends information to scoreboards, meet management software, a printer, water polo horns and shot clocks.

Committed to excellence, CTS continues to research and develop new and enhanced product features. The *System 6* has been designed to meet and exceed current needs, and to easily allow for upgrades and enhancements in the future, extending the life of your investment.

Serving more than 80% of the U.S. aquatics market, Colorado Time Systems is a leader you can rely on.

Enhanced split handling

Race split times are printed as they occur. Lap and cumulative splits are stored, and can be posted to matrix display scoreboards* during a race. The *System 6* supports unlimited splits, both near- and far-end.

(*Including monochrome, tri-color and full color boards.)

Expanded lane capability

CTS' *System 6* is the only system on the market that can support up to 12 lanes. The *System 6* is engineered for flexibility in lane shifting and lane reversal. This allows you, for example, to shift your race course to the center lanes of your pool yet keep the lane numbering standard.

System 5/System 6

CTS gives you the choice between two great sports timing solutions with the *System 5* and new *System 6*. Choose the option that's best for your facility:

Feature	System 5	System 6
Screen	Monochrome 41 sq. in.	Color 53 sq. in.
Number of lanes	Up to 10	Up to 12
Lane shifting	No	Yes
Ability to store & post splits	Yes	Yes
Supports unlimited splits	No	Yes
Floppy disk drive	No	Yes
Aquatic sports:		
Swimming	Yes	Yes
Diving	Yes	Yes
Water Polo	Optional	Optional
Synchronized Swimming	Optional	Optional
Training Pace Clock	Optional	Optional
Pre-programmed event sequencing with customizing capabilities	Yes	Yes
Meet management interface port for PC download	Yes	Yes
A/C power with battery backup	Yes	Yes
Rechargeable battery	No	Yes
Hy-Tek Meet Management compatibility	Yes	Yes

Large, full-color screen

The *System 6* has the largest screen on the market - 8.4" x 6.3" (10.5" diagonally). The larger, backlit, **color** screen makes it easy for the operator to read the information displayed and run the event efficiently.

Multi-sport options

Swimming and diving are standard with the *System 6*; optional changeable keyboard inserts and software programs are available for water polo, synchronized swimming and training pace clock.

3.5" floppy drive

For unlimited race information storage and easy system upgrades.
